

MMBL has considerable experience in the education sector, having worked with schools and colleges across East Anglia. One of MMBL's long standing relationships has been with Lynn Grove High School in Great Yarmouth. Following the Project Management and Cost Consultancy in delivering projects to provide a new Sports Hall and Science Blocks, MMBL are currently being retained as Project Managers for the new building and remodelling programme to provide increased capacity for year 7 transfer including an exciting conversion of the former gymnasium to a Modern Learning Resource Centre.

MMBL have provided the design concept and development through to planning content and are

retained to manage the implementation of the project through to completion via a design and build procurement route.

- Past Projects at Lynn Grove have included:
- New Technology block incorporating Business and IT suites.
- Extension classrooms for Mathematics and Technology.
- Two storey Science block
- Extension containing six language suites
- Refurbishment of Mathematics block
- Creation of dining room from redundant courtyard.
- Maintenance and upgrading of building fabric, infrastructure and drainage.
- Develop and monitor five Year Planned Maintenance
